DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Glassford et al. (U.S. Patent No. 3,733,113).

See Figures 1, 3, and 5. Note that the drawer assembly 10 includes a first frame component 16 with an open track 20, and a second drawer frame component 24 including at least one protrusion 26. As disclosed in column 4 (lines 53-55), the first frame component 16 is assembled with corresponding support members 12 and 14. Thereafter, “drop-in assembly” of the drawer 22 with the first frame component 16 is performed by setting the second frame component 24 of the drawer 22 onto the open track 20 of the first frame component 16, and sliding the protrusion 26 along the track 20. Figure 3 shows the protrusion 26 of the second drawer frame component 24 resting on the open track 20.
